CAN PLACEMENT INFO SHEET

In order to increase our level of service, Red Oak has invested in a new front arm truck that will pick up our trash carts from the curb and place them back after dumping. We Need Your Help With Cart Placement.

- Please see this YouTube link to see how this new truck works:
<https://youtu.be/0cp9QHU5vLg>
- Please put the cart back where you got it, as long as, it is at least 2 feet away from Trash Cart.
- With the handles of the carts facing the house, please place the carts at least 2 feet away from the trash cart, with the Recycling Cart to the Left and the Trash Cart to the Right, when facing your house.
- Please remember to get all card board. You do not have to dig through it, just dump it.
- Please do not lean items, or place extra waste, up against the side of the trash carts. Please allow at least 2 feet of space beside the cart.

Please see and use these pictures as reference.
